

Nobody wanted **COLD FOOD**  
or **COLD WATER.**

A **NEW HOT WATER HEATER**  
and **NEW WIRING** saved the day.

**HAMMOND SERVICES IS THE ANSWER TO ALL YOUR HOMEWORK PROBLEMS**

Betty Crosby needed a new electric stove and a hot water heater. So, the Griffin resident called the electrical and plumbing professionals at Hammond Services. "Wesley Robinson was so nice and very professional," she said. "He went right about his business, did his job and even checked the pipes under the house to make sure the water was running like it should. I couldn't have asked for anybody nicer or better." Although it was the first time she had called Hammond Services, it won't be her last. "I am very pleased," she said. "I haven't had a minute's trouble, and if I need any more work, I will call Hammond Services again."
